“A chi canta...”

I cattivi cantanti non sentono ciò che cantano;
i mediocri potrebbero sentire ma non ascoltano;
i cantanti medi sentono ciò che hanno cantato;
solo i buoni cantanti sentono ciò che non hanno ancora cantato.

Bad singers don’t hear what they are singing,
mediocre could hear, but they don’t listen,
average singers hear what they are singing,
but only good singers hear what they are going to sing.
